LIFETIME SECURITY GUARANTEE

Secured by

**Yale**<sup>®</sup>

## Yale Lifetime Security Guarantee

Fitted with Yale door and window hardware, Stellar benefits from outstanding protection against forced entry, as well as the Yale Lifetime Security Guarantee for an extra line of defence.

This fantastic guarantee entitles your customer to:

### Up to £1000 towards home insurance excess

In the unlikely event of a break-in, Yale will pay up to £1000 towards your customer's home insurance excess to make sure they're not left out of pocket.

### Up to £1000 towards repairs or replacements

Our products are always designed to stand the test of time. That's why if a Yale component fails under attack, Yale will pay up to £1000 for repairs or replacements.

### £1000 compensation

If a break-in is caused by a failure of a Yale component, Yale will do all they can to make it right. That includes paying £1000 compensation to the homeowner to apologise for the distress caused.

### Up to £250 refund on call-out fees

With the Yale Lifetime Security Guarantee, your customer is fully covered if the worst should happen. Yale will even refund call-out fees to secure your customer's home if a break-in occurs due to a failure of a Yale component.

Customers also receive **10% off** Yale security products at [yalestore.co.uk](http://yalestore.co.uk)

Terms and conditions apply.

THE STELLAR WINDOW RANGE

## Stellar and Yale a secure partnership

Stellar and Yale offer the ultimate combination for maximum performance and peace of mind.

Excelling in solving the typical problems fabricators face with other aluminium systems, Stellar provides increased efficiency and cost-effectiveness, backed by Yale's fantastic Lifetime Security Guarantee and PAS 24 standard certification for added reassurance.

Stellar could save you 20% in fabrication time, reduce your stockholding and material inputs and give you the edge on your competitors. Adding further quality to your offering, Yale is acknowledged as the leading home security brand, with 98% brand recognition.

Strengthen your offering with a formidable package. Easy to install, no need for on-site scaffolding and quick to glaze, Stellar is a great choice. Internally glazed for enhanced security, its unique reverse butt joint eliminates the need for dummy sashes or adaptors. Up to 12% more glass thanks to its ultra slim sightlines, Stellar delivers the bright, light look that today's market wants. Secure, low maintenance and more sustainable, Stellar can also reach WERs of Band A+ and has aesthetics that suit both traditional and contemporary properties. Plus, it's combined with Yale's outstanding reputation for excellence, so why choose anything else?

## The Stellar **window range**

Everything you need is included in the Stellar range. The system is complete and has dedicated ancillary products so that whatever your customer is looking for, you've got the answer.

The layout of windows – the number of fixed and opening panes, the simplicity of the lines or the extra details that give character – everything is adaptable, and every component is designed to work together.

There are two types of casement: a standard flush design with a stepped shape internally, and a fully-flush option with flush lines inside and outside. Bay and bow windows are no problem – all the assemblies needed, all the trims and all the cills are included in the Stellar system. Where astragal bars are required, Stellar has them.

## The Stellar **door range**

It's easy to achieve consistency in style with Stellar – every type of door is possible with this advanced aluminium system.

Stellar has been developed to be reassuringly robust in an entrance door. It's light and graceful enough for a classic French door, and its ultra slim lines ensure that both bifolding doors and lift and slide patio doors offer the best possible glass to frame ratios.

Stellar is versatile. Fanlights and sidelights can easily be incorporated in doorsets. There are purpose-made midrails, a full range of cills and thresholds and every element has been tested and proven to deliver excellent long-term performance. Domestic or commercial, whatever your market, with Stellar, there's a door that's easy to install and fits to perfection.

## Assurance

Every part of the Stellar range has been developed with security in mind.

From the earliest stages of draft design, there has been a commitment to producing a highly accredited system, built to offer the reassuring long-term protection and security consumers expect.

The robust nature of Stellar's sections is a key component of this strategy. This system is resistant to attack and meets the UK Police Secured by Design Scheme standards. PAS24 standards are – of course – no problem for Stellar. The system conforms to the highest standards throughout with every component selected to enhance security.

Stellar combines strength, resilience and the innovative reverse butt joint design to keep homes safe and secure. It has also been designed to accommodate the latest high-security hardware, espagnolette locking systems, multipoint locks and shootbolts.

### Secured by Design

Police preferred specification accredited security product of the official UK Police flagship initiative, supporting the principles of 'designing out crime'.

PAS  
24

### PAS 24

British Standards Institute accredited security, weather proofing and service life performance.
